

👉 PLEASE DELIVER TO THE PERSON NAMED ABOVE. Or, the safety manager.

The first DOT workshop for motor carriers to go beyond the fundamentals and into the advanced arena of program analysis!

BEYOND BASICS™

S E M I N A R

UNLOCK NEW SKILLS AND INSIGHTS! When you've learned all you can about the basics of DQ files, log books, drug and alcohol programs and the other fundamentals of compliance, step up to "BEYOND BASICS" ... a real advance in your mastery of DOT risk management skills. This all-day workshop will help you learn:

- How the DOT software used to determine a carrier's fitness rating works and how to make it work for you.
- How one of the nation's leading plaintiff's attorney's trains other attorneys to prepare their case, and where to look to discover your program's weaknesses.

■ How to turn the driver interview into a source of real information by employing statement analysis like that used by the FBI during interrogation.

■ Why Part 385 is the 'crystal ball' of your company's compliance future and when to use it.

■ Which technologies are a fit for your fleet operations and where to find them.

Cost: \$249 includes all workshop materials, full alumni benefits and catered lunch. Register online at www.standardandbest.com and save \$30 off the standard tuition.
