Fundamentals of Safety Training™

Don't plan another safety meeting until you've read this flyer!

Learn the tools and techniques that professional trainers rely on to capture attention and get their message across.

- **Utilize proven teaching techniques** that put you in control and build confidence.
- **Master the four steps** to presenting a safety topic that *engages* your audience and leaves a lasting impression.
 - **Understand the best** teaching approach to get the results you're looking for.
 - **Set meeting objectives** that you can measure and control.
 - **Develop topics** for a 12-month meeting calendar.
 - **Bonus:** You will receive a prepared meeting plan for "How to Respond at the Scene of An Accident."

You will have safety meetings that your drivers remember and put into practice when you learn the skills and techniques that professional trainers rely on.
